

BIKE DRIVE!

Has someone you know outgrown their bicycle?

- For the 2nd time, our family is running a bike drive to collect bikes and bike parts of all shapes, sizes, and conditions for Bikes for Humanity, a grassroots charity that sends bikes to poor African communities. These bikes give many people access to health care, education, and water that they otherwise might not have.
- If you have any old or outgrown bikes or spare parts, please donate them!
- Monetary donations are also welcome to help pay the shipping costs of sending the bikes to Africa. Make checks payable to "Bikes for Humanity- Boston"
- For more information, visit b4h-boston.org
- For any questions, contact enemirovsky@hotmail.com

Drop your bikes off anytime between now and Monday, July 23
Please drop off at 17 Hayden Lane, Bedford

Thank you,
The Nemirovsky Family
