HOUSING AUTHORITY

KIM K. LOVY

FINAL CANDIDATE STATEMENT ~ MARCH 8, 2021

Greetings my fellow townspeople, I would like to remind you that I have decided to run for a vacancy at the Bedford Housing Authority. While the race is uncontested, I do hope that you will consider my background, and my love of Bedford, and elect me to the Bedford Housing Authority. It will be my pleasure to help our town.

QUESTIONS ~ LEAGUE OF WOMEN VOTERS

Why are you interested in serving the Bedford community as a member of the Housing Authority?

I am excited to begin serving the citizens and the Town of Bedford; this will be my first experience in local government. I believe each and every human has a right to adequate housing, and that it is the responsibility of a community to help provide housing when needed. When I saw there was a vacancy in the Housing Authority, it seemed to me a perfect place to start.

What issues are of particular interest to you?

I'm just beginning; I have a few pie-in-the-sky ideas for connecting with the tenants and getting to see how the BHA can continue to fulfill its goals and possibly improve. There will be issues that seem more or less important once I'm working with the authority.

INITIAL STATEMENT

Greetings! My family and I have been residents of Bedford since August 2006. We have benefited greatly in our 15+ years here. We have three children who entered Davis School as kindergarteners. Two graduated in 2020, and the third is in the BHS class of 2024! The Bedford Public Schools is a wonderful place for children to grow.

We enjoy the town's resources (library, recreational programs, Springs Brook Park, trails). I love the character and traditions of Bedford. I know that the strength of Bedford lies in its citizens, and that building a great community requires involvement. I am eager to start giving back, in deeds, to my town.

I have chosen to become involved with the Bedford Housing Authority as its purpose aligns with one of my beliefs: housing is a right, and it is incumbent upon a community to help provide it. I have strong feelings about affordable homeownership. To that end, I (personally) would like to get to know the Municipal Affordable Housing Trust and the Housing Partnership.

I look forward to being a part of the Bedford Housing Authority.
